

Carpentry is easy the common milling cutter of begin chooses knowledgeable

1, straight knife:

Rabbit of the chamfer of all sorts of width, mill mixes use
Xi mortise, cooperate to be treated simply also can do str
tenon to join or point to receive or makeup. The dimension
straight knife is very much, the most commonly used is 1
with 1/2 inch straight knife. If want mill wide at 1/2 inch gr
OK much mill two, 1/4 inch - the chamfer between 1/2 Cu
can use 1/4 inch straight Dao Xi two. Than 1/4 inch narrow
chamfer?

Additional: About the choice of handle diameter: If possible
sentence chooses 1/2 inch, than 1/4 inch bear fruit force.
